EXPERIENCE

Crowdr, Lagos

Frontend Engineer

March 2023 - Present

- Worked closely with the Senior Developer strategizing on best ways to handle the project.
- Made inputs in key design decisions.

Technocrat IT & Consult, Lagos

Junior Web & Mobile Developer

March 2023 - Present

- Was team lead where I spearheaded the day-to-day activities of my team, as well as assisting other team leads.
- Navigated and mastered a codebase of over 4000 components, consequently becoming a crucial resource person for the project.
- Formed a pattern of spotting crucial errors that elude others and coming up with fixes for them.
- Tutored interns on Web Development using technologies like Angular, TypeScript, JavaScript, Git, etc..

Technocrat IT & Consult, Lagos

Intern Web Developer

February 2023 - March 2023

- Navigated the project's codebase fixing bugs.
- Taught fellow interns key programming programming concepts and general web development knowledge.
- Was the go-to person for fellow interns when they found difficulties with their tasks.
- Showed such exceptional skill and talent that I was promoted to Junior Web Developer in no time.
